

Nursery Overview

Daily Skills

Maths should not only be taught during specific maths sessions but wherever possible throughout the day. The following should be utilised to support maths teaching:

- Days of the week song and talking about the day
- General counting e.g. counting how many bananas there are in the fruit box.
- Counting songs
- Use of ordinal numbers e.g. "Sam line up first, Lilly line up second..."
- Maths games such as track counting games
- Noticing maths in the environment e.g. asking children what they notice about a tree. They may say it is tall, has circles on etc.
- Incorporating maths in areas of continuous provision wherever possible e.g. an activity that matches numeral to quantity in the finger gym area
- Incorporating maths in daily routines e.g. during registration time. If there are 3 children absent the children clap 3 times. Having labels on pencil pots with a representation of a number to show how many pencils go in that pot during tidy up time. Different representations of number on the 'how many children can play here' posters.

Here are key representations that are used across the year:

Five Frames	
Numicon	
Fingers	
Dice	
Cubes	
Numerals	
Real life objects	
Number Blocks	
Drawing	

This is the Medium Term overview for **Autumn 1**. This gives a breakdown of the different Mathematics Early Learning Goals taught within each topic.

Nursery –Yearly Overview –Autumn 1														
Week 1 (BLOCK 1)		Week 2-3 (BLOCK 2)		Week 4-5 (BLOCK 3)	Week 6-7 (BLOCK 4)									
Getting to know you		Colours (recognising, naming and sorting)		Sorting (in different ways)	Pattern (continuing AB patterns)									
Small Steps of Learning	<p>Opportunities for settling in, introducing the areas of provision and getting to know the children.</p> <p>Key times of day, class routines. Exploring the continuous provision inside and out. Where do things belong? Positional language.</p>		<p><u>Suggested books with links to this topic include:</u></p> <table border="1"> <tr> <td>The Usborne Big Book of Colours</td> </tr> <tr> <td>Monsters Love Colors – Mike Austin</td> </tr> </table> <p><u>Maths Early Learning Goal focus:</u></p> <ul style="list-style-type: none"> Recognise and name colours in a variety of contexts e.g. toys within the classroom, colours in nature, colours in the environment, matching colours, colours on themselves such as hair, skin, clothes. Say when objects are and are not the same colour. Link to expressive art and design through painting. 		The Usborne Big Book of Colours	Monsters Love Colors – Mike Austin	<p><u>Suggested books with links to this topic include:</u></p> <table border="1"> <tr> <td>Sort it Out! – Barbara Mariconda</td> </tr> <tr> <td>Sorting at the market – Tracey Steffora</td> </tr> </table> <p><u>Maths Early Learning Goal focus:</u></p> <ul style="list-style-type: none"> Reasoning within sorting i.e how have you sorted the animals/button etc? Sort the objects by their own rules and should be taught how to communicate that rule (e.g. I have sorted the buttons by colour). Verbalise what is the same and what is different between sets of objects (e.g these buttons are pink and these buttons are blue/ they are boys and they are girls). Links can be made to Understanding of the World 		Sort it Out! – Barbara Mariconda	Sorting at the market – Tracey Steffora	<p><u>Suggested books with links to this topic include:</u></p> <table border="1"> <tr> <td>Pattern Fish – Trudy Harris Lots and lots of Zebra</td> </tr> <tr> <td>Stripes – Stephen R. Swinburne</td> </tr> </table> <p><u>Maths Early Learning Goal focus:</u></p> <ul style="list-style-type: none"> Noticing pattern in different environments. Continue an AB pattern. See a pattern, talk about what they can see and to continue a pattern. 		Pattern Fish – Trudy Harris Lots and lots of Zebra	Stripes – Stephen R. Swinburne
	The Usborne Big Book of Colours													
Monsters Love Colors – Mike Austin														
Sort it Out! – Barbara Mariconda														
Sorting at the market – Tracey Steffora														
Pattern Fish – Trudy Harris Lots and lots of Zebra														
Stripes – Stephen R. Swinburne														
Key Vocabulary		notice, match, same, colour		sort, notice, groups, sets, same, different		pattern, continue, notice, next								

This is the Medium Term overview for **Autumn 2**. This gives a breakdown of the different Mathematics Early Learning Goals taught within each topic.

Nursery –Yearly Overview –Autumn 2			
	Week 1 (Block 1)	Week 2-3 (Block 2)	Week 4-5 (Block 3)
	Size (using the language of size)	Counting	Comparing
Small Steps of learning	<p><u>Suggested books with links to this topic include:</u></p> <p>Big Bear, Small Mouse – Karma Wilson & Jane Chapman</p> <p><u>Maths Early Learning Goal focus:</u></p> <ul style="list-style-type: none"> Focus on teaching large/big and small/little Use of real life objects that are large and small in relation to each other. Focus on reasoning- ‘do you think this large tree would fit in my small box?’ 	<p><u>Suggested books with links to this topic include:</u></p> <p>Anno’s Counting Book – M Anno</p> <p>The Very Hungry Caterpillar – Eric Carle</p> <p>The one-one principle – this involves children assigning one number name to each objects that is being counted.</p> <p>The stable-order principle – children understand when counting that the numbers have to be said in a certain order.</p> <p>The cardinal principle – Children understand that the number name assigned to the final object in a group is the total number of objects in that group.</p> <p>The abstraction principle – this involves children understanding that anything can be counted including things that cannot be touched including sounds and movements</p> <p>The order-irrelevance principle – this involves children understanding that the order we count a group of objects is irrelevant. There will still be the same number.</p>	<p><u>Suggested books with links to this topic include:</u></p> <p>Five Creatures by Emily Jenkins</p> <p><u>Maths Early Learning Goal focus:</u></p> <ul style="list-style-type: none"> Compare two groups of objects Recognise which group of objects has more things. Use the language more and fewer. Begin to compare without counting objects. Look at groups of objects that have the same amount.
	Key Vocabulary	<p>notice, big, large, small, little</p> <p>The _____ is smaller/larger than the _____.</p>	<p>count, how many, total, altogether, cardinal number</p> <p>The cardinal (whole)number is _____.</p>

This is the Medium Term overview for **Spring 1**. This gives a breakdown of the different Mathematics Early Learning Goals taught within each topic.

Nursery –Yearly Overview –Spring 1

Week 1-2 (Block 1)

Week 3-4 (Block 2)

Week 5-6 (Block 3)

Number 1

Number 2

Number 3

When teaching numbers to 6 consider the counting principles at all times. Wherever possible, ensure that children are counting real-life objects. They could start by counting objects that are identical before moving on to counting objects that have slight difference e.g. different colours, different sizes, but make sure that the objects are of the same type. Encourage children to put objects in a line when counting so they have a clear start and end point. The five frame can be used to support children in lining up objects to count. It will also support children to subitise numbers within 5. Numerals may be introduced to children but they are not expected to write them at this stage. They could use drawings to represent their numbers.

Small Steps of learning

Number 1:

- Number blocks episode 1
- Counting to 1
- Finding 1 object
- 1 being the first number, its position on a number line, ordinal numbers
- Numicon 1
- Dice 1
- Subitising 1
- Representing 1 on a 5 frame
- A circle – 1 sides shape (including in the environment)
- 1 action e.g. 1 hop, 1 jump, 1 clap
- The numeral and formation of 1
- Number 1 in the environment
- Representing 1 using marks, pictures and finger
- Matching numeral to quantity.

Number 2:

- Number blocks episode 2
- Counting to 2
- Finding 2 objects
- 2 being the second number, its position on a number line, ordinal numbers
- Numicon 2
- Dice 2
- Subitising 2
- Representing 2 on a 5 frame
- 2 actions e.g. 2 hops, 2 jumps, 2 claps
- The numeral and formation of 2
- Number 2 in the environment
- Representing 2 using marks, pictures and finger
- Matching numeral to quantity
- Focus on what 2 is made up of (1 is a part of me, 1 is a part of me and the whole of me is 2)

Number 3:

- Number blocks episode 3
- Counting to 3
- Finding 3 objects
- 3 being the third number, its position on a number line, ordinal numbers
- Numicon 3
- Dice 3
- Subitising 3
- Representing 3 on a 5 frame
- 3 actions e.g. 3 hops, 3 jumps, 3 claps
- The numeral and formation of 3
- Number 3 in the environment
- Representing 3 using marks, pictures and finger
- Matching numeral to quantity
- Focus on what 3 is made up of (1 is a part of me, 2 is a part of me and the whole of me is 3)
- Triangles: 3 sides and 3 corners.

Resources and books

Number Blocks Series 1: One; Series 1: 2; Series 1: 3; Series 1: One, Two, Three!
 The Three Little Pigs
 The Three Billy Goats Gruff
 Goldilocks and the Three Bears

Key Vocabulary

number, numeral, subitise, represent, how many, count, cardinal, first/second/third etc

This is the Medium Term overview for **Spring 2**. This gives a breakdown of the different Mathematics Early Learning Goals taught within each topic.

Nursery –Yearly Overview –Spring 2			
	Week 1-2 (Block 1)	Week 3-4 (Block 2)	Week 5-6 (Block 3)
	Number 4	Number 5	Number 6
	<p>When teaching numbers to 6 consider the counting principles at all times. Wherever possible, ensure that children are counting real-life objects.
